What's in the Box

- Chromebook
- AC Adapter & Power Cord

Key Features

Web Description

Acer Chromebook 15, Intel Atom x5-E8000 Quad-Core Processor, 15.6" HD, 4GB LPDDR3, 16GB Storage, CB3-532-108H

Think Bigger, Louder

The Acer Chromebook 15 is a feature-rich, ultra-affordable large screen Chromebook. Enjoy immersive visuals on the large 15.6" HD display, which is the largest display on any Chromebook. With Intel® quad-core processing and dual-band 802.11ac wireless technology it loads content-rich webpages quickly, provides brilliant video playback, and lets you multitask effortlessly while delivering amazing 12 hours of battery life. And, thanks to two full-sized upward-facing speakers, movies and your favorite songs sound pitch perfect. It all adds up to the right mix of features to make you think bigger and reimagine what's possible with a Chromebook.

Features

Because Performance Matters

The Intel Atom® x5 processor gives you the performance, agility, and speed you need in your Chromebook. Switch quickly between apps for more productive multi-tasking. With outstanding battery life you can do what you love longer while feeling safer.

More to Explore

See and do much more on the large 15.6" HD widescreen display sporting a 24% larger screen than a 14" Chromebook. A larger display means less scrolling and more doing. Plus the large touchpad provides plenty of room to scroll and gesture freely and effortlessly.

Epic Entertainment

Experience your entertainment in all of its glory. Dual upward-facing audio speakers enable a captivating sound experience. Movies come to life, songs have more depth, and games are even more engaging with immersive audio.

HDR webcam

All Day Battery Life

"All day"? Could mean a lot of things depending on who you talk to. We figure with up to 12 hours of battery operation, you'll agree, whatever you call a day, we've got you covered.

Chrome

In addition to the existing apps in Chrome Web Store, you can now get an access to more than 2 millions of Android apps from Google Play Store to learn and do more.

Clear Photos & Google Hangouts Experience

The built-in HD webcam supports High Dynamic Range (HDR) imaging, presenting you at your best. Experience brighter, more detailed images for clear photos and quality Google Hangouts video chat experiences.

Acer® Chromebook 15 CB3-532-108H

Detailed Product Specifications

Processor

Google Chrome Operating System

Key Features of Chromebooks

Meet Chromebook

A fast, web-browser based laptop that starts in seconds and has built-in virus protection and automatic software updates.

Play Music

Store your digital music library and stream millions of additional songs from the Google cloud.

Print Documents

Print to any cloud-enabled printer from anywhere using Google Cloud Print.

Video Chat

Chat with up to 9 of your Google Hangout Friends for free using the Google Hangouts app.

Sync Automatically

Use the offline versions of Google apps when Wi-Fi isn't available and your information will automatically sync when you're back online.

(1) Overall system performance is based on several PC attributes. GHZ, processor clock speed, is one of the attributes. Intel Burst Technology performance varies depending on hardware, software and overall system configuration.

(2) Shared system memory may be allocated to support integrated graphics depending on system memory size and other factors. Actual system memory available to the operating system will be reduced by the amount of shared system memory utilized by the graphics solution and resources required by the operating environment.

(3) 1 GB is 1 billion bytes. Actual formatted capacity is less and may vary depending on preloaded materials and operating environment.

(4) Battery life varies depending on product specifications, computer settings and applications or features launched.

(5) For a free copy of the standard limited warranty end-users should see a reseller where Acer products are sold or write to Acer America Corporation, Warranty Department, P.O. Box 6137, Temple, TX 76503. TFT displays commonly exhibit a small number of colored dots, so-called "nonconforming pixels." This phenomenon is a limitation of TFT LCD technology, not a product defect and, as such, is not covered by the limited warranty or by the upgrade programs.
