

BURROMAX

MODEL TT350MB

Every Inch of these bikes say motorcycle! We have created the coolest and best quality piece out there. We've scaled down a cross between a TT Enduro and a Flat Tracker to give you a distinct look, added large diameter aluminum alloy wheels with 12.5" diameter pneumatic tires, rear disc brakes and a taller and wider 21" seat height for rider comfort with adjustable wide handlebars for added control. Heavy duty welded steel tube frame with adjustable mono shock rear suspension and telescopic front forks make these bikes a very smooth ride. A realistic looking engine houses the power source and really helps set this bike apart from the competition.

Features:

- Expect 14 mile range with 180 lb rider and 20 mile plus with 100 lb riders on flat ground wide open.
- Faster charging, full charge in 3 to 3.5 hours and partial charging is OK
- Lithium Ion Battery Performance!
- Looks like a scaled down motorcycle down to the details-not a plastic toy
- 2 Speed modes with hidden switch for 8 or 17 mph.
- Full suspension that works
- Variable throttle speed controllers.
- Disc Brake
- 350W
