Asus ROG Strix G10DK-RS554 Gaming Desktop Computer

ROG Strix G10DK | Do More Than Game

The ROG Strix G10DK is a Windows 10 gaming desktop that delivers phenomenal gaming experiences powered by up to an AMD Ryzen 7 5800X PCIe SSD offers superfa Processor and NVIDIA GeForce RTX 3060 Graphics. Its high-performance M.2st storage and quicker load times for your growing games library. Customize your experience in Armoury Crate, which offers Aura Sync personalization and performance optimization in a single streamlined utility.

Sleek and Solid

The distinctive chassis boasts clean lines, sharp creases, and a futuristic armor-inspired finish. An optional transparent side panel highlights Aura Sync components that illuminate the interior and can be customized to create the perfect gaming environment. At just 27 liters, the Strix GL10DH puts critical components into a compact body that occupies less space on or under your desk. Smaller dimensions also make the system easier to take to a LAN party.

More Bang for Your Buck

The Strix G10DK is powered by up to an AMD Ryzen 7 5800X processor and the latest NVIDIA GeForce RTX 3060 GPU. There's also up to 64GB of 3200MHz DDR4 memory for quick and efficient multitasking, plus a 1TB M.2 PCIe SSD and a 2TB HDD for superfast game and app load times.

CUSTOMIZABLE AURA SYNC LIGHTING

Pick your favorite look from a full spectrum of colors and effects powered by Aura Sync. The optional transparent side panel provides a view of internal components basking in the glow of RGB lighting that matches the front bezel. Easily synchronize the lighting with Aura Sync-compatible gaming mice, keyboards, headphones, and other peripherals to give your setup a cohesive look that matches your style.

IMMERSIVE SOUND EXPERIENCE

The Strix G10DK combines top quality components and Sonic Studio III software to deliver immersive, high-fidelity 7.1-channel virtual surround-sound for home theater-quality audio through headphones. Use Sonic Studio to shift between optimized sound profiles for different scenarios, from gaming to watching movies, and perfect your settings with a built-in equalizer for additional fine-tuning.

STAY COOL DURING INTENSE GAMING SESSIONS

The Strix G10DK has a thermal design featuring two isolated air chambers. The upper chamber houses the CPU and GPU, while the power supply unit and the HDDs can be found in the lower chamber. The isolated chambers provide cleaner airflow through the system, and prevent heat from the CPU and GPU from warming up the power supply unit and storage drives.

Unified System Control with Armoury Crate

ROG Armoury Crate unifies system and lighting control and puts them at your fingertips. Its user-friendly interface lets you manage up to four gaming profiles that automatically load your preferred settings when you launch your favorite titles. These options are the beginning for what will become an even more versatile tool.

Product Type: Gaming Desktop Computer

Processor

Processor Manufacturer: AMD

Processor Type: Ryzen 3

Processor Model: 3400G

Chipset

Chipset Manufacturer: AMD

Memory

Standard Memory: 8 GB

Network & Communication

Ethernet Technology: Gigabit Ethernet

Interfaces/Ports

Number of DVI Ports: 1

DVI (Rear): Yes

Total Number of USB Ports: 8

Number of USB 3.2 Gen 1 Ports: 6

Number of USB 3.2 Gen 2 Ports: 2

Number Of Ethernet Ports: 1

VGA (Rear): Yes

Operating System

Operating System Platform: Windows

Operating System: Windows 10 Home

Physical Characteristics

Form Factor: Mid-tower

Miscellaneous

Environmentally Friendly: Yes

Environmental Certification: RoHS

ASUS VZ279HEG1R Gaming 27" Monitor

ASUS VZ279HEG1R Gaming Monitor - 27-inch Full HD (1920 x 1080), IPS, 75Hz, 1ms MPRT, Extreme Low Motion Blur, FreeSync, Ultra-slim

27-inch Full HD (1920 x 1080) IPS gaming monitor with 75Hz refresh rate designed for gamers and immersive gameplay

ASUS Extreme Low Motion Blur (ELMB) technology enables a 1ms response time (MPRT) together with Adaptive-sync, eliminating ghosting and tearing for sharp gaming visuals with high frame rates

FreeSync technology providing variable refresh rates for low latency, stuttering-free and tearing-free while gaming

Exclusive GamePlus function delicately designed for every gaming needs

TUV Rheinland Certification for Flicker-free and Low Blue Light technology to ensure a comfortable viewing experience

The ASUS VZ279HEG1R gaming display is built for victory in the gaming arena. With its Full HD, IPS panel and 1ms response time, it blurs the line between what is virtual and what's real to draw you into truly

immersive gaming worlds. It even includes gamer-centric features like ASUS GamePlus technologies to take your gaming experience to a whole new level.

27 -inch IPS Full HD display with brand new gaming-based design

With its 27 -inch Full HD IPS display, ASUS VZ279HEG1R gives you a brand-new gaming design- Turbo Rim based that matches the perfect gaming setup. It also provides space-saving feature with an ultra-slim profile measure just 7.5mm frameless design.

Lightning-fast 1ms MPRT and 75Hz refresh rate

Even with today's fastest games, ASUS VZ249QG1R eliminates smearing and motion blur thanks to a 1ms response time (MPRT) and 75Hz refresh rate. This astonishing visual performance lets you react instinctively to what you see onscreen, so you can take corners like a pro race car driver or take an enemy out with a headshot as he peeks around cover. In addition, Adaptive-Sync/FreeSync eliminates screen tearing and choppy frame rates for even more seamlessly smooth gameplay.

Robust connectivity

Whether you're playing games or streaming videos, ASUS VZ279HEG1R gives you extensive connectivity options, including HDMI(v 1.4) and VGA to support for wide array of multimedia devices.

Gamer-centric features

ASUS-exclusive GamePlus technology

ASUS-exclusive GamePlus technology, co-developed with pro gamers, offers in-game enhancements that help you get more out of your game. These tools allow gamers to practice and improve on their gaming skills.

Crosshair

You can choose between six persistent crosshairs and fine tune their position, ensuring pinpoint accuracy in first-person shooters. Enjoy perfect aim even when the game doesn't provide its own crosshair or sights.

Ultra-Low Blue Light technology

ASUS Ultra-Low Blue Light technology reduces the amount of harmful blue light. You can access and select four different filter settings onscreen easily through the OSD menu to find the best one that suits the task at hand.

Low Blue Light Level

The VZ279HEG1R gaming monitor has undergone stringent performance tests and is certified by Rheinland laboratories, a global provider of technical, safety, and certification services, to be flicker-free and to emit low blue light levels.

Flicker-Free technology

Flicker-Free technology reduces flicker to give you a comfortable gaming experience. This minimizes instances of eyestrain and other potentially damaging eye ailments when you're embroiled in long, drawn-out gaming sessions.

Screen Size Class: 27"
