

MVWB835DC

MAYTAG® EXTRA-LARGE CAPACITY WASHER WITH
DEEP CLEAN OPTION - 5.3 CU. FT.

KEY FEATURES

BEST CLEANING IN ITS CLASS DRIVEN BY THE POWERWASH® CYCLE*

This washer delivers Best Cleaning in its class driven by the PowerWash® Cycle, which features a combination of extra cleaning action and heated water to attack stubborn stains.

DEEP CLEAN OPTION

The Deep Clean option adds a high-concentration soak early in the cycle providing a deep clean for those settled-in stains.

OPTIMAL DISPENSERS

Optimal dispensers automatically release detergent, fabric softener and oxygenated additives at the right time for an outstanding cleaning performance.

SANITIZE CYCLE

The Sanitize cycle removes 99.9% of household bacteria with extra hot water temperature, delivering thorough cleaning and peace of mind.

DIRECT DRIVE MOTOR

The new direct drive motor powers an enhanced drive system that provides the power needed to handle larger loads. Plus, it's backed with a 10-year limited parts warranty† and tested to 2X life** so you know it will keep delivering maximum performance for years.

POWER™ IMPELLER

The Power™ Impeller attacks everyday tough stains in a single wash with a reverse wash motion and triple action spray that keeps clothes thoroughly saturated with concentrated detergent throughout the cycle.

MAYTAG® COMMERCIAL TECHNOLOGY

These washers are built to last thanks to the Maytag® Commercial Technology we put under the hood, including a 2X Life** tested drive system.

10-YEAR LIMITED PARTS WARRANTY† ON THE DIRECT DRIVE MOTOR AND WASH BASKET

We're so confident that these washers are built to get your clothes clean for years, we back them with a 10-year limited parts warranty† on the direct drive motor and stainless steel wash basket.

AMERICAN PRIDE

We take pride in building strong, reliable appliances for your home. From Clyde, Ohio to you, these washers are designed, engineered and assembled in the U.S.A.

*Models MVWB765F and MVWB766F. Based on 18-lb load, among leading top load brands, 4.5–4.9 cu. ft. capacity agitator washers, PowerWash® cycle vs. comparable cycles and default settings. **Based on time-accelerated, 20-year simulated testing, Normal cycle and average use. †See warranty for details.

COLORS

Washer Dimensions:

Recessed area or closet installation

Dimensions show recommended spacing allowed, except for closet door ventilation openings which are minimum required. This washer has been tested for installation with spacing of 0" (0 mm) clearance on the sides. Consider allowing more space for ease of installation and servicing, and spacing for companion appliances and clearances for walls, doors, and floor moldings. Add spacing of 1" (25 mm) on all sides of washer to reduce noise transfer. If a closet door or louvered door is installed, top and bottom air openings in door are required.
